Surgical Gown

Dadman Teb Pasargad, as a leading manufacturer of disposable medical equipment in Iran, proudly introduces surgical gowns under the BIOSAFE brand. Added to our product portfolio in 2022, this gown is designed to enhance hygiene and safety standards in healthcare environments.

- This product offers customization options, including fabric thickness, length and width, fabric color, as well as the addition or removal of straps and adhesive closures.
- This product features the option for printing or sewing the hospital or center's logo onto the elastic cuff sections of the sleeves.

Patient Gown

Introduced into our production line in 2021, this product is designed for use in hospital inpatient wards, clinics, and specialized practices.

- This product offers customization options, including fabric thickness, length and width, fabric color, as well as the addition or removal of straps and adhesive closures.

MRI Set

The BIOSAFE MRI set, manufactured using high-quality nonwoven fabrics and standardized sewing and packaging processes, is an ideal choice for hospitals, specialized clinics

- This product comprises three items—gown, cap, and trousers—packaged together as a single unit, with each item customizable in terms of size, thickness, and color.

Disposable Bed-Sheet Roll

Disposable bed sheet rolls are made from a medical-grade combination of polyethylene and cellulose, offering key features such as tear resistance, controlled moisture absorption, and hypoallergenic properties.

- This product is manufactured in various widths starting from 60 centimeters and upwards, with its length also customizable. Standard production includes perforations every 180 centimeters along the roll length for easy separation at those points.
- Additionally, the thickness and color of the product are customizable to meet specific requirements.

Disposable Pillowcases

Disposable bed sheets and pillowcases are made from soft, lightweight non-woven fabrics, primarily medical-grade polypropylene. These materials offer key features such as hypoallergenic properties, breathability, which are essential for maintaining patient hygiene and comfort.

- This product offers customization options, including fabric thickness, length and width, fabric color

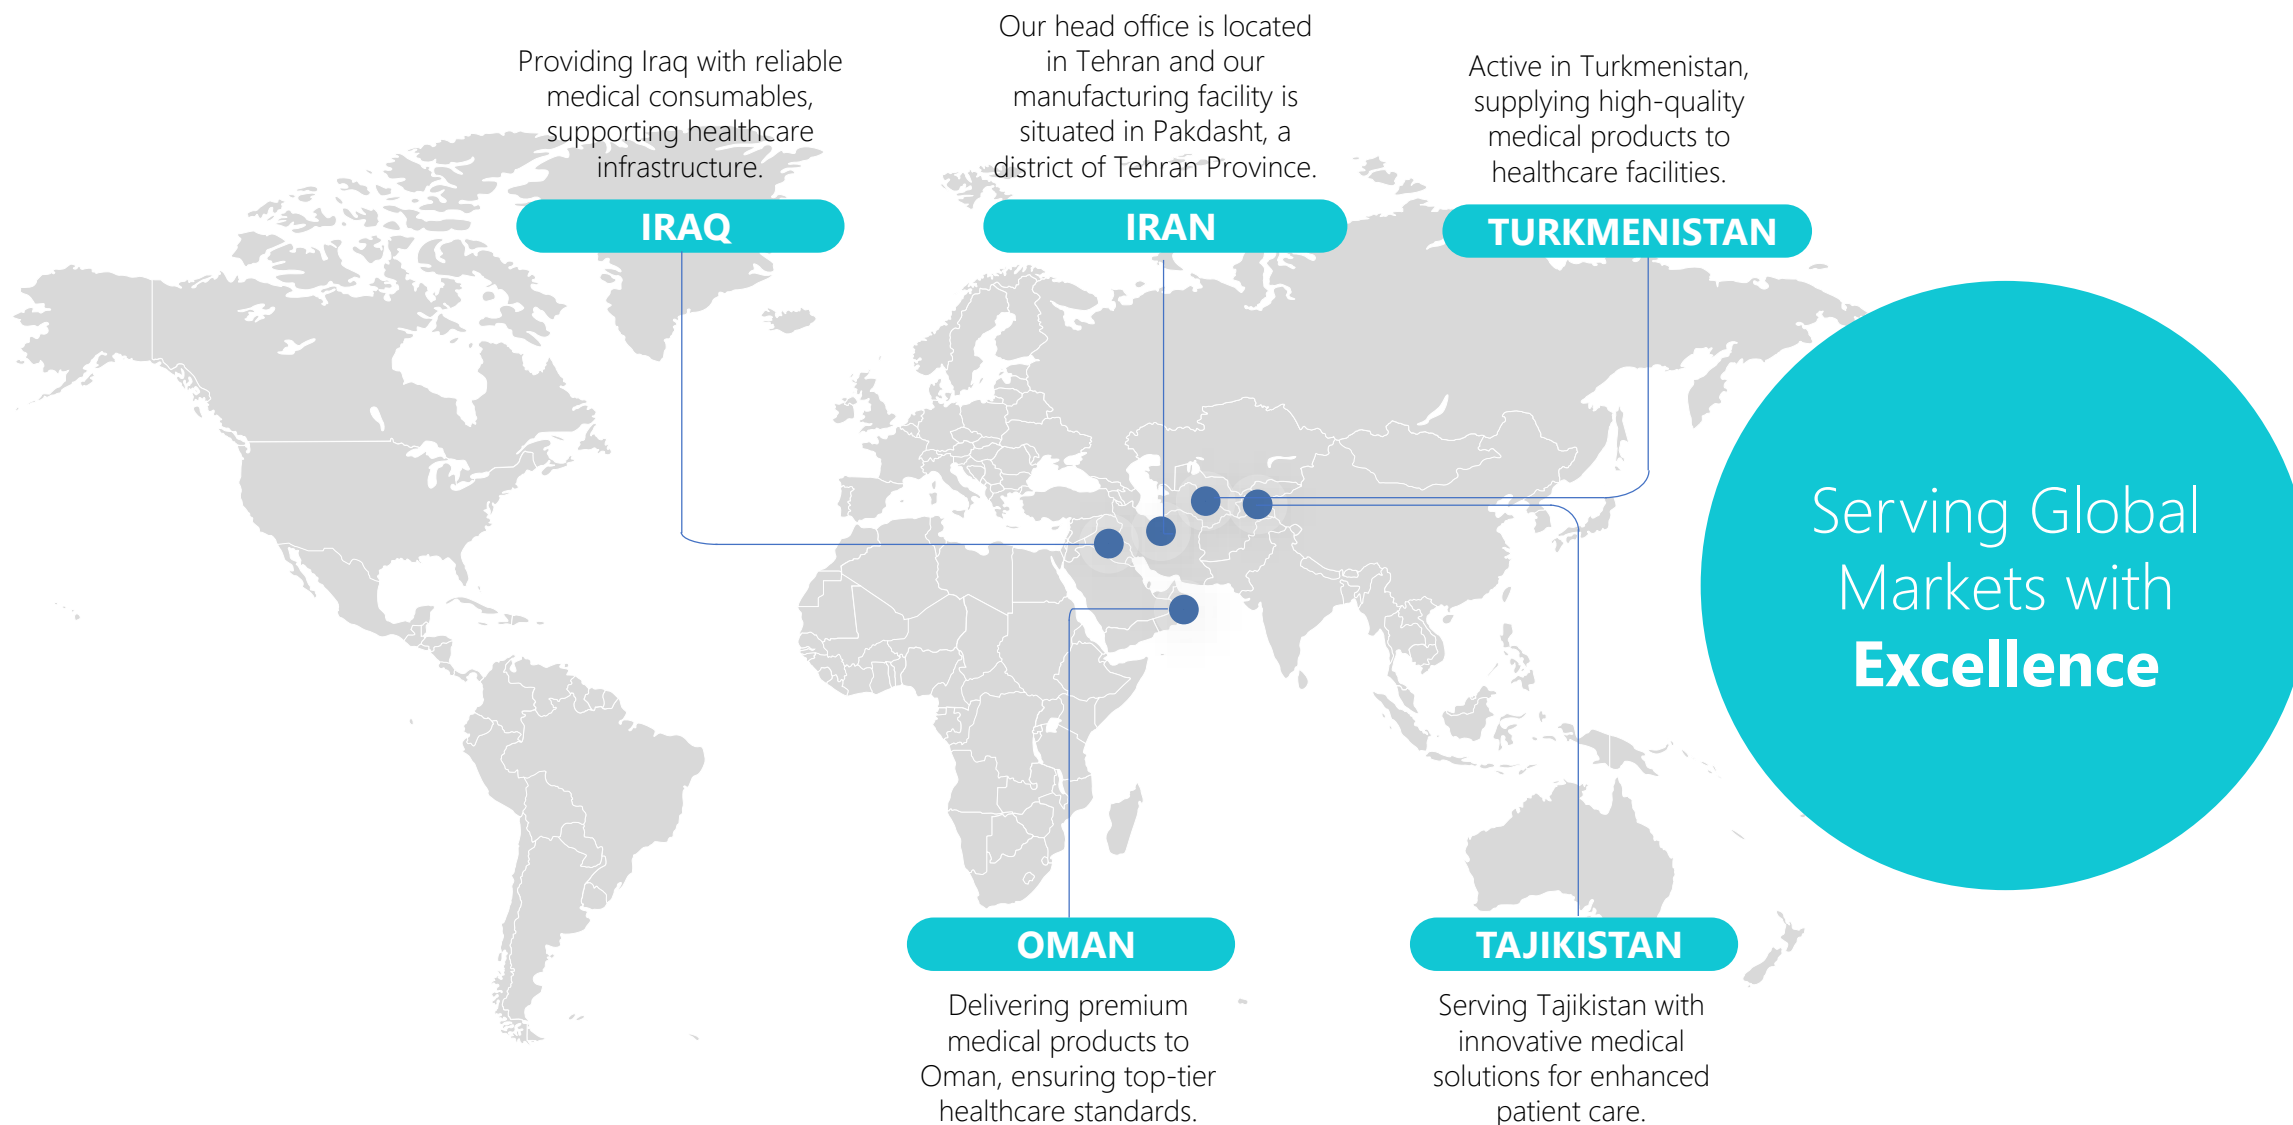

Disposable Bed-Sheet

The disposable elasticated bedsheet from Dadman Teb Pasargad, designed for superior hygiene and comfort, is an essential solution for medical and care environments.

- This product is customizable in terms of thickness, color, and dimensions to meet the specific needs of healthcare facilities and international partners.
